

June 24, 2019

Dear Neighbor:

The Upper School re-build project continues to progress nicely and is on track for completion in early August. We sincerely appreciate your support, patience, and feedback during the past year. The project team focused on minimization, and to the extent possible, elimination of any disruption to the neighborhood in the project's completion.

Witnessing the City-approved planning documents come to life has eased the pain of loss and renewed our hope for a bright future. Work currently underway includes exterior hardscape and landscaping, interior finishes, and building commissioning. Minnehaha Academy faculty and staff will move back into the building in early August in preparation for the start of the 2019-2020 school year.

We are planning an open house later this summer and will send you an invitation in the coming weeks.

Best regards,

Donna Harris, Ed.D.
President
Minnehaha Academy
